

Dear Members of Los Altos Hills Club:

It's hard to believe another year has come and gone, as we've been through a lot since the pandemic shutdown in March 2020, for almost 3 years. For a while our club meetings were on Zoom, and our club has gone back to many in-person meetings since the fall of 2021 with a few online meetings, as well as our book club meetings.

In January 2022, we had Mayor George Tyson and city manager Peter Pirnejad speak about the state of the town online, followed by another virtual meeting with the Los Altos Hills Fire District and Santa Clara County Fire Department in March. We were able to go back to in-person meeting in May, with honored speakers from the water district, and the prize winner of giant pumpkin grower Vince Zunino, who prepared small pumpkin seedling for us to take home. In September we had an informative talk by Dr. Lisa Rogo-Gupta on pelvic health, followed by another informative health talk by Dr Susan Swetter on Melanoma. All of these events were well received.

Most people have gone back to work, as you can see from the traffic on the local roads and freeways, and we have been traveling, flying, going to in-person events, and trying to live a normal life. However, we know that COVID has taken a huge toll on our mental wellbeing worldwide. More than ever, we need physical and social contact, connections and support. I am very excited to be a part of this club, that fosters friendship and connections, and to continue our in-person meetings.

We have a great year planned for 2023, with our first luncheon with Robin Chapman, Author of “The Valley of Heart’s Delight”, who has previously been a speaker at the club, at the Fremont Hills Country Club.

And the much-anticipated State of the Town of Los Altos Hills meeting in March with the new mayor Linda Swan and City Manager, and many more fun and exciting meetings to come.

We look forward to seeing you in person soon.

Annie Ju, President Los Altos Hills Club
and Board Members, Officers and Committee Chairs
